5 A grant of Rs 3000 was sanctioned for a building the total cost of which is Rs 15,000. The total quantity of work done so far is of the value of Rs 8000 and Rs 1,500 of the grant has been paid. The proposal now is to pay a further sum of Rs 1,167 Rs. out of the grant S^{d} making the total amount paid equal to 1/3 of the value of work done. It would however appear that it W^{d} be better to ~~give~~ pay only upto 1/5 of the work done as the grant S^{d} is equal to 1/5 of the value of the work. This would admit of only Rs 100 being paid now.

should bear the same ratio to the cost of the work already finished.

7 Under the Grant-in-Aid Rules the maximum amount that can be sanctioned towards Educational buildings is $\frac{1}{3}$d of the total estimated cost in the case of A.V. Schools, and the I.G. of Edn. has therefore recommended that the amounts may be disbursed so as not to exceed this limit.

8 It is a matter for orders whether a particular grant should be paid only after the building is completed or in instalments in the course of its completion. Disbursements in instalments ~~have been~~ are being sanctioned by Govt. in several cases.

9 The Grant-in-Aid Rules do not provide for the disbursement being always made in the ratio which the amount of grant sanctioned may bear to the total estimated cost.

12. I do not think it is practicable to fix the same proportion for the amount to be paid out of the grant as for the total cost. So long as the disbursing authorities are satisfied that the money is properly spent and bears a fair proportion to the amount spent out of the donor's private resources I think the proportion need not be rigidly insisted upon. The I. G. E's proposal may be approved

SIR,

I have the honour to state that a building grant of Rs.3,000/- was sanctioned in Government Order No.7624-5/Edn. 262-11 dated 16th April 1912, to the Dalavoy's Anglo-Sanskrit School Mysore, for the construction of a new building estimated to cost Rs.15,000 and a sum of Rs.1,500 was paid to the Manager of the school in 1913-14, on the Executive Engineer of Mysore reporting that work to the extent of Rs.4,500/- was done. The balance of Rs.1,500/- was provided in last year's budget, but the amount lapsed to Government, as no payment could be made owing to the insufficiency of progress in the construction of the building. The Executive Engineer now reports in his letter No.2304 dated 6th October 1915 that additional work to the extent of Rs.3,500/- has since been done to the building. The manager of the school prays for the payment of the balance of the grant sanctioned to him viz, Rs.1,500/-, but as the additional work turned out is estimated only at Rs.3,500/-, I recommend that Government may be pleased to order the payment of a sum of Rs.1,167, being 1/3rd of the cost of the additional work done, the charge being met from the provision of Rs.19,400/- under "18 Education, 8 Grants-in-aid, Grants-in-aid, 7, Building and Lumpsum grants for aided schools" in the current year's budget.

I have the honour to be,

Sir,

Your most obedient servant,

K. Shaman Rao,

Inspector General.
